

2025-26 Annual District 9 Registrar Report

It is my privilege to submit my 4th and final report as D9 Registrar, this time for the 2025-26 hockey season. I have had a wonderful time serving as the district Registrar, and will miss working with an exceptional group of individuals who are very truly dedicated to making hockey fun for all in our not so little part of Ottawa.

To Stephanie, Caitlin, Shauna, Sophia, Tamara and Rich, you did all the hard work. Sometimes – especially when I started 4 years ago – I even made the work harder. Thank you for your patience and thank you for your tireless devotion to the 2,692 kids listed below as Association Registrars. It was an honour to count myself as a fellow registrar amongst you incredible people.

The Year That Was

Note: All figures below include D9 teams only (i.e., exclude Casselman, Cumberland, and Embrun figures)

Player Registrations

Overall player registrations for the 2025-26 player year total 2,692, a healthy increase of 92 from the previous year's registration of 2,571 (2,600 in 2023-24).

Player Affiliations

There were 457 players affiliated with higher divisions or category teams at the end of the regular season, 25 more than last year's total of 432 (353 in 2023-24).

The actual number of players affiliated in the year was likely much higher. For the 2022-23 season onward, HEO has permitted districts and minor hockey association teams to manage their **House League** affiliations through either the Hockey Canada Registry (HCR) or via the TTM platform in use by many associations/leagues. As a result, player affiliations for **D9 House League games (other than tournaments and exhibition matches)** do not need to be recorded in HCR (e.g., they can be managed

directly in TTM without the need to also update the official roster in HCR). Note, however, that all affiliations must be included on an official team roster in HCR for tournaments and exhibition matches.
